WARNING

TO REDUCE THE RISK OF FIRE OR INJURY TO PERSONS:

- ✔ Please exercise caution when using the lamp, as it tends to HEAT up rapidly. We recommend taking necessary safety measures to ensure optimal usage.
- ✔ For your safety, please refrain from touching the HOT lens, guard, or enclosure. We recommend waiting for the product to cool down before handling it.
- ✔ To prevent any fire hazards, please ensure that the lamp is kept away from materials that may easily catch fire. We appreciate your cooperation in maintaining a safe and secure environment.
- ✔ For safety reasons, we recommend that only a qualified professional install this electrical product.
- ✔ Before attempting to install this unit, ensure all power connections are off for your own safety.

WARRANTY

- We stand behind the quality of our product and offer a 2 year warranty. Kindly ensure that you keep the proof of purchase as it will be required for any warranty claims.
- Warranty will be void if there is any damage due to improper usage or modification to the fixture.
- Failure to comply with the instruction in this manual may increase the risk of damage or injury and will void warranty.

INSTALLATION GUIDE FOR CDRA30

STEP-BY-STEP INSTALLATION INSTRUCTIONS

Step 1: Plan Your Layout

- **Determine Placement:** Choose the path or area where the lights will be installed. Measure the distance between lights to ensure even illumination. A typical spacing is 6–10 feet apart, depending on the desired light spread.
- **Consider Power Source:** Ensure that the path light can be connected to a suitable power source.

Step 2: Prepare the Ground

- **Dig the Hole:** Using a shovel or trowel, dig a hole where you want to install the path light. The hole should be deep enough to accommodate the ground stake.
- **Ensure Stability:** Make sure the hole is wide enough to allow the ground stake to sit firmly. Test-fit the stake by inserting it into the hole to ensure stability before proceeding.

Step 3: Connect the Electrical Wiring

- **Strip the Wires:** Use a wire stripper to strip ½ inch of insulation from the end of the light's wires.
- **Connect to the Transformer:** Attach the wires to the low-voltage transformer, . Ensure the positive and negative terminals are correctly aligned.
- **Waterproof the Connections:** Use WN12 waterproof wirenuts (Sold Separately) to protect the wiring from moisture and outdoor conditions when connecting the wires from the fixture.

INSTALLATION GUIDE FOR CDRA30

Step 4: Attach the Spot Light

- **Mount the Fixture:** Once the wiring is complete, securely attach the CDRA30 Spot light to the ground stake.
- **Secure the Fixture:** Ensure the fixture is stable and upright. Adjust the positioning as needed before tightening the fixture in place.

Step 6: Final Light Check

- **Power On:** Once everything is connected, turn on the power to the fixture.
- **Check Illumination:** Verify that the path light is functioning properly and provides adequate illumination for the area
- Once the installation is successfully completed, you can effortlessly adjust the light's color using the provided remote control. Simply aim the remote at the fixture and select your preferred color or lighting mode to create the perfect ambiance. Additionally, the remote offers four automatic modes to choose from: Flash, Strobe, Fade, and Smooth, allowing you to enhance your lighting experience with dynamic effects.

Step 7: Pairing your phone with the ap

- Scan the QR code to download and install the HappyLighting application. For iOS devices (iPhone or iPad), access the App Store. For Android devices, download it from the Google Play Store.

- Enable Bluetooth on your Apple or Android device.
- Power on the CDRA30. Open the application, tap the button in the top-left corner to display the device list, and select the light to initiate the connection
- You can group 3 to 12 lights using the app, depending on your Android or iOS system version. To do this, tap 'Group Manage,' select the desired lights, and add them to a group. Multiple groups can be created

- **RGBW mode**, where you can modify both the RGB (Red, Green, Blue) color settings and the brightness. The app includes 6 presets and 6 standard color buttons for quick access to individual channels.

- **Tape Mode**: In this mode, the connected CDRA30 reacts to external sounds and noise levels, functioning like a microphone to light up accordingly.

- **Music Mode**: In this mode, the connected CDRA30 will synchronize with the rhythm of the music playing on your smartphone or tablet. To activate, open your music library on the device, select the desired track, and use the Pause/Play button in the center to start or stop both the music and the light fixture.

- **Style**: There are 20 preset modes available, each with adjustable speed controlled via the slider.

MAINTENANCE TIPS

- **Regular Inspection:** Periodically check the bracket and fixture to ensure they are still securely mounted and functioning correctly.
- **Surface Maintenance:** Monitor the mounting surface, particularly trees, to ensure the bracket does not cause damage as the tree grows.

SAFETY PRECAUTIONS

- Always wear appropriate safety gear, such as gloves and safety glasses, during installation.
- Ensure the mounting surface is capable of supporting the weight of both the bracket and the lighting fixture.
