WARNING

TO REDUCE THE RISK OF FIRE OR INJURY TO PERSONS:

- ✓ Please exercise caution when using the lamp, as it tends to HEAT up rapidly. We recommend taking necessary safety measures to ensure optimal usage.
- ✓ For your safety, please refrain from touching the HOT lens, guard, or enclosure. We recommend waiting for the product to cool down before handling it.
- ✓ To prevent any fire hazards, please ensure that the lamp is kept away from materials that may easily catch fire. We appreciate your cooperation in maintaining a safe and secure environment.
- ✓ For safety reasons, we recommend that only a qualified professional install this electrical product.
- ✓ Before attempting to install this unit, ensure all power connections are off for your own safety.

WARRANTY

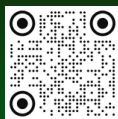

- We stand behind the quality of our product and offer a 2 Year warranty. Kindly ensure that you keep the proof of purchase as it will be required for any warranty claims.
- Warranty will be void if there is any damage due to improper usage or modification to the fixture.
- Failure to comply with the instruction in this manual may increase the risk of damage or injury and will void warranty.

CDPA76 Integrated Aluminum Path Light – Premium Outdoor Illumination for Elegant Landscapes

Elevate your outdoor lighting with the CDPA76 Integrated Aluminum Path Light, a high-performance, low-voltage path light designed to blend style, efficiency, and durability. Whether you want to illuminate walkways, gardens, driveways, or public spaces, this path light offers a sophisticated and energy-efficient solution to enhance both safety and aesthetics.

Crafted from high-quality aluminum, the CDPA76 is built to withstand harsh outdoor conditions, ensuring long-term performance with minimal maintenance. The integrated 1.7W LED module provides a soft, warm white illumination that creates an inviting ambiance while offering excellent visibility. Its weatherproof IP65 rating guarantees resistance against rain, dust, and environmental wear, making it a reliable choice for residential and commercial applications.

Key Features & Benefits

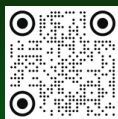

- ✓ Premium Integrated LED Technology – Featuring an energy-efficient 1.7W LED, this fixture delivers bright and uniform illumination while consuming minimal power. The integrated LED module eliminates the need for bulb replacements, ensuring long-lasting and cost-effective performance.
- ✓ Durable & Weather-Resistant Construction – Made from high-grade aluminum, this fixture is designed to resist corrosion, rust, and fading, ensuring a sophisticated and modern look that lasts for years. The IP65 waterproof rating makes it resistant to heavy rain and dust accumulation.
- ✓ Low-Voltage 12V AC/DC Compatibility – Operates safely on 12V AC/DC, making it compatible with most standard low-voltage transformers. This ensures easy installation, lower energy consumption, and enhanced safety, especially in outdoor environments.

DO NOT INSTALL WITHIN 10 FEET OF A POOL, SPA OR FOUNTAIN

- ✓ **Soft & Uniform Light Distribution** – Designed to emit a well-balanced glow, preventing glare while ensuring maximum ground coverage for pathways, driveways, and landscapes.
- ✓ **Sleek & Minimalist Design** – The modern aluminum finish adds a touch of elegance, allowing the fixture to seamlessly integrate into various landscape settings without overpowering the scenery.
- ✓ **Hassle-Free Installation & Maintenance** – Designed for quick and easy installation, this fixture includes all necessary mounting hardware, allowing for a seamless setup in different outdoor settings. With an integrated LED, there's no need for frequent bulb changes, reducing long-term maintenance.

Ideal Applications

 **Residential Landscaping & Walkways** – Perfect for enhancing gardens, flower beds, and sidewalks with soft, ambient illumination.

 **Commercial Outdoor Spaces** – Ideal for hotel pathways, resorts, office buildings, and public spaces where durable and stylish lighting is needed.

 **Driveways & Entryways** – Provides clear visibility for guests and vehicles while adding an upscale touch to exterior design.

 **Parks & Recreational Areas** – Enhances safety and aesthetics in community spaces, creating a well-lit and welcoming environment.

 **Patios & Courtyards** – Adds subtle yet effective lighting to outdoor seating areas for both residential and commercial spaces.

Technical Specifications

- Material: Heavy-Duty Aluminum
- Light Source: Integrated 1.7W LED Module
- Voltage: 12V AC/DC (Low Voltage for Safety & Energy Efficiency)
- Waterproof Rating: IP65 (Weatherproof for Outdoor Use)
- Color Temperature: 2200K
- Lifespan: 20,000+ hours
- Finish: Sleek Aluminum
- Installation: Surface Mount or Stake Mount

Why Choose the CDPA76 Integrated Aluminum Path Light?

- ✓ Energy-Efficient & Cost-Effective – Uses only 1.7W of power, significantly reducing electricity costs while maintaining high light output.
- ✓ Durable & Long-Lasting – Built from premium materials that can endure extreme weather conditions.
- ✓ Enhances Outdoor Safety – Prevents tripping hazards and improves visibility for driveways, walkways, and public spaces.
- ✓ Modern & Timeless Design – Complements any architectural style, from traditional gardens to contemporary landscapes.
- ✓ Easy Installation – Quick setup with included ground stake for stable placement
- ✓ Even, Soft Light Output – Provides beautiful and functional illumination for landscapes

INSTALLATION GUIDE FOR CDPA76

STEP-BY-STEP INSTALLATION INSTRUCTIONS

Step 1: Plan Your Layout

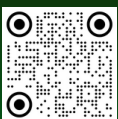

- **Determine Placement:** Choose the path or area where the lights will be installed. Measure the distance between lights to ensure even illumination. A typical spacing is 6–10 feet apart, depending on the desired light spread.
- **Consider Power Source:** Ensure that the Pathlight can be connected to a suitable power source. Ensure that the input voltage of the light cable wires is 12V AC/DC. Using improper voltage may cause malfunction or permanent damage to the fixture.

Step 2: Prepare the Ground

- **Dig the Hole:** Using a shovel or trowel, dig a hole where you want to install the Pathlight. The hole should be deep enough to accommodate the ground stake.
- **Ensure Stability:** Make sure the hole is wide enough to allow the ground stake to sit firmly. Test-fit the stake by inserting it into the hole to ensure stability before proceeding.

Step 3: Install the Path Light

- Insert the included ground stake securely into the ground.
- Ensure the stake is completely vertical for stability.

INSTALLATION GUIDE FOR CDPA76

Step 4: Wire Connection Instructions

Strip the insulation: Carefully strip approximately $\frac{3}{4}$ inch (1.9 cm) of insulation from the ends of the two wires to be connected. Ensure that the exposed metal ends are clean and free of frayed strands.

Align the wires: Hold the stripped ends of both wires together, making sure they are neatly aligned with no stray strands crossing over.

Twist the wire nut: Firmly twist the wire nut clockwise onto the wires until it is tight and secure.

Insert the wires into the wire nut: Push the aligned wire ends all the way into the wire nut, ensuring that the bare metal is fully covered.

Test the connection: Gently tug on each wire to ensure they are firmly held in place and will not come loose.

Inspect the connection: Ensure that no exposed wires or loose strands are visible. If the connection is not secure, remove the wire nut and repeat the process.

⚠ **Note:** Always follow local electrical codes and regulations when performing electrical work. If unsure or uncomfortable with electrical tasks, consult a qualified electrician. Safety should always be a top priority.

Step 5: Power On & Final Adjustments

- Turn on the power to test the fixture.
- Verify proper operation before completing the installation.

INSTALLATION GUIDE FOR CDPA76

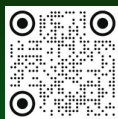

- Bury the main cable underground for safety and protection from external elements.
- Do not exceed the maximum wattage specified for the fixture to prevent overheating or damage.
- Regularly inspect and maintain your lighting system to ensure long-term reliability.

MAINTENANCE TIPS

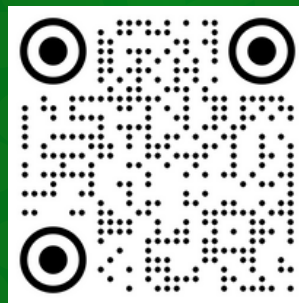

- **Regular Inspection:** Periodically check the bracket and fixture to ensure they are still securely mounted and functioning correctly.
- **Surface Maintenance:** Monitor the mounting surface, particularly trees, to ensure the bracket does not cause damage as the tree grows.

SAFETY PRECAUTIONS

- Always wear appropriate safety gear, such as gloves and safety glasses, during installation.
- Ensure the mounting surface is capable of supporting the weight of both the bracket and the lighting fixture.
