

Thank you for choosing our high-quality product. To ensure the best possible experience, please take a moment to carefully read and follow all instructions before assembly, installation, and use. Doing so will not only guarantee proper function and safety but also help you maximize the full potential of this exceptional product. We truly appreciate your business and are honored to be your trusted provider of top-notch products!

## **WARNING**

## TO REDUCE THE RISK OF FIRE OR INJURY TO PERSONS:

- Please exercise caution when using the lamp, as it tends to HEAT up rapidly. We recommend taking necessary safety measures to ensure optimal usage.
- For your safety, please refrain from touching the HOT lens, guard, or enclosure. We recommend waiting for the product to cool down before handling it.
- To prevent any fire hazards, please ensure that the lamp is kept away from materials that may easily catch fire. We appreciate your cooperation in maintaining a safe and secure environment.
- For safety reasons, we recommend that only a qualified professional install this electrical product.
- Before attempting to install this unit, ensure all power connections are off for your own safety.

## **WARRANTY**

- We stand behind the quality of our product and offer a 2 year warranty. Kindly ensure that you keep the proof of purchase as it will be required for any warranty claims.
- Warranty will be void if there is any damage due to improper usage or modification to the fixture.
- Failure to comply with the instruction in this manual may increase the risk of damage or injury and will void warranty.

# FIXTURE(S) MUST BE INSTALLED IN ACCORDANCE WITH ALL LOCAL CODES AND ORDINANCES. DO NOT INSTALL WITHIN 10 FEET OF A POOL, SPA OR FOUNTAIN

# DMB52 Integrated Brass Well Light - Durable, Elegant, and Built for Performance

Elevate your outdoor lighting with the DMB52 Integrated Brass Well Light, a high-quality in-ground lighting fixture designed to blend seamlessly into your landscape while providing exceptional illumination. Crafted from heavy-duty cast brass, this well light offers superior durability, ensuring long-lasting performance in even the harshest outdoor environments. Its compact and discreet design allows for seamless integration into any landscape without drawing attention to the fixture itself, making it an ideal choice for those who seek both function and aesthetics in their outdoor lighting solutions.

#### **Premium Quality Construction**

The DMB52 well light is meticulously constructed using solid cast brass, a material known for its resistance to corrosion and wear. Unlike fixtures made from aluminum or plastic, brass stands the test of time, developing a natural patina over time that enhances its visual appeal while maintaining structural integrity. Whether exposed to rain, snow, or extreme temperatures, this fixture remains reliable and visually appealing year after year.

### **Advanced LED Technology for Efficient Lighting**

Equipped with a 1.5W Chip On Board (COB) LED, the DMB52 well light delivers outstanding brightness while maintaining energy efficiency. The LED produces a warm 3000K light temperature, creating a welcoming and inviting atmosphere in any outdoor space. With an output of 80 lumens, this fixture is perfect for accent lighting, pathway illumination, or highlighting key landscape features such as trees, statues, or architectural elements.

# FIXTURE(S) MUST BE INSTALLED IN ACCORDANCE WITH ALL LOCAL CODES AND ORDINANCES. DO NOT INSTALL WITHIN 10 FEET OF A POOL, SPA OR FOUNTAIN

#### **Benefits of the Integrated LED System:**

- Energy-Efficient: Uses minimal power while providing excellent brightness.
- Long Lifespan: Integrated LED technology reduces the need for frequent replacements.
- Consistent Light Output: Provides steady and uniform illumination without flickering or dimming over time.
- Low Heat Emission: Operates efficiently without generating excess heat, reducing the risk of overheating in enclosed spaces.

#### Weatherproof & Built for Outdoor Use

Designed to withstand the elements, the DMB52 Well Light is rated IP68 waterproof, ensuring reliable operation in wet conditions. This high waterproof rating makes it ideal for installations in areas where exposure to moisture is inevitable, such as near pools, water features, or irrigation systems. Whether in rain, snow, or high humidity, this well light continues to perform flawlessly, maintaining its brightness and functionality over time.

#### **Key Weatherproofing Features:**

- IP68 Waterproof Rating: Fully resistant to water ingress, ensuring durability in wet conditions.
- Sealed Housing: Prevents dirt, dust, and moisture from affecting internal components.
- Temperature Resistant: Operates efficiently in extreme heat and cold without performance degradation.

## FIXTURE(S) MUST BE INSTALLED IN ACCORDANCE WITH ALL LOCAL CODES AND ORDINANCES. DO NOT INSTALL WITHIN 10 FEET OF A POOL, SPA OR FOUNTAIN

#### **Compact & Versatile Design**

The DMB52 Well Light is designed to be discreet yet powerful. Its low-profile design makes it perfect for in-ground installations, where the fixture remains mostly hidden while providing effective illumination. This makes it ideal for lighting driveways, walkways, patios, gardens, and architectural elements without obstructing the view or becoming a tripping hazard.

#### Easy Installation for a Hassle-Free Setup

Installing the DMB52 Brass Well Light is straightforward, making it an excellent choice for both professional landscapers and DIY homeowners. It comes equipped with a 20-inch wire and PVC pipe, allowing for a secure and stable installation. The fixture is designed for 12V low-voltage systems, making it safe for residential and commercial applications.

#### Ideal Applications for the DMB52 Brass Well Light

This well light is versatile and can be used in various outdoor settings, including:

- Pathway Lighting: Safely illuminate walkways and driveways with a warm, inviting glow.
- Landscape Accent Lighting: Highlight trees, shrubs, and other landscape features.
- Architectural Lighting: Enhance the beauty of buildings, walls, and columns.
- Security Lighting: Improve outdoor visibility for safety and security purposes.

#### Why Choose the DMB52 Integrated Brass Well Light?

- Premium Solid Brass Construction for exceptional durability and longevity.
- Energy-Efficient COB LED providing warm, consistent illumination.
- Weatherproof & IP68 Rated for reliable performance in all conditions.

# FIXTURE(S) MUST BE INSTALLED IN ACCORDANCE WITH ALL LOCAL CODES AND ORDINANCES. DO NOT INSTALL WITHIN 10 FEET OF A POOL, SPA OR FOUNTAIN

- Compact & Discreet Design that integrates seamlessly into any landscape.
- Easy Installation with included wire and PVC pipe for added convenience.
- Versatile Application for residential and commercial outdoor lighting needs.

Enhance your outdoor spaces with the DMB52 Integrated Brass Well Light – a perfect blend of durability, efficiency, and elegance. Whether you're lighting up a backyard garden, a commercial landscape, or a high-end architectural feature, this well light is designed to exceed expectations and provide years of dependable performance.

#### STEP-BY-STEP INSTALLATION INSTRUCTIONS

#### **Safety Precautions**

- Ensure the power supply is turned off before installation.
- Follow local electrical codes and regulations.
- Wear protective gloves during installation to avoid injury.
- Do not install in areas prone to excessive moisture unless properly sealed.
- Ensure all connections are waterproof for outdoor installations.

#### 1. Preparing the Installation Site

- Select a location that provides the best illumination while avoiding areas prone to standing water.
- If installing in-ground, dig a hole large enough to accommodate the fixture and the wiring.
- If installing in concrete or hard surfaces, ensure proper mounting sleeves or junction boxes are available.

#### 2. Wiring Connections

- Turn off the power at the main electrical panel.
- Connect the fixture's low-voltage wires to the main power supply using the provided connectors. Use WN12 (Sold Separately) to Waterpfoof your connection.
- Secure all wire connections and test for continuity before final installation.
- Use waterproof electrical tape or silicone sealant to protect connections from moisture.

#### 3. Fixture Installation

For In-Ground Installation:

- Place the mounting sleeve (if provided) into the prepared hole.
- Insert the fixture into the sleeve, ensuring it is level and secure
- Use gravel and soil for additional stability.

For Concrete/Hard Surface Installation:

- Secure the fixture using mounting brackets or embedded housing.
- Ensure the fixture is flush with the surface for a clean, professional look.

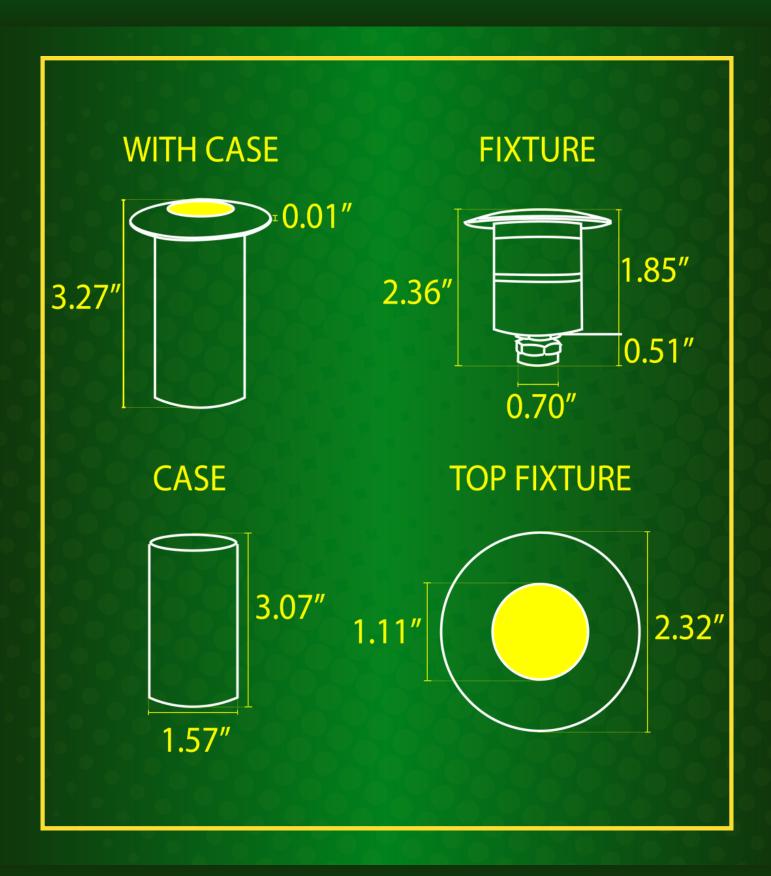

## **MAINTENANCE TIPS**

 Regular Inspection: Periodically check the bracket and fixture to ensure they are still securely mounted and functioning correctly.

#### **SAFETY PRECAUTIONS**

- Always wear appropriate safety gear, such as gloves and safety glasses, during installation.
- Ensure the mounting surface is capable of supporting the weight of both the bracket and the lighting fixture.
