WARNING

TO REDUCE THE RISK OF FIRE OR INJURY TO PERSONS:

- ✓ Please exercise caution when using the lamp, as it tends to HEAT up rapidly. We recommend taking necessary safety measures to ensure optimal usage.
- ✓ For your safety, please refrain from touching the HOT lens, guard, or enclosure. We recommend waiting for the product to cool down before handling it.
- ✓ To prevent any fire hazards, please ensure that the lamp is kept away from materials that may easily catch fire. We appreciate your cooperation in maintaining a safe and secure environment.
- ✓ For safety reasons, we recommend that only a qualified professional install this electrical product.
- ✓ Before attempting to install this unit, ensure all power connections are off for your own safety.

WARRANTY

- We stand behind the quality of our product and offer a 2 year warranty. Kindly ensure that you keep the proof of purchase as it will be required for any warranty claims.
- Warranty will be void if there is any damage due to improper usage or modification to the fixture.
- Failure to comply with the instruction in this manual may increase the risk of damage or injury and will void warranty.

UNA06 – Integrated Aluminum Well Light

Low-Profile Recessed Landscape Lighting with Sleek Durability & High-Performance Output

Transform your outdoor ambiance with the UNA06 Integrated Aluminum Well Light by Abba Lighting USA – a beautifully engineered fixture designed for modern architectural exteriors, landscape professionals, and lighting enthusiasts who demand performance, longevity, and refined style. Crafted from heavy-duty corrosion-resistant aluminum, this recessed well light features a sleek, low-profile design that blends seamlessly into any environment while delivering powerful illumination with long-lasting reliability.

It's the ideal lighting solution for highlighting trees, sculptures, columns, walls, and architectural accents—bringing depth, texture, and dimension to your outdoor spaces.

Whether you're designing pathways, accenting garden features, or enhancing hardscape areas, the UNA06 performs with style and substance. The fixture's is enclosed in a weatherproof, IP65-rated body, offering year-round resilience in any climate. It comes standard with a high-clarity glass lens that ensures crisp light diffusion and even beam distribution.

The aluminum body is powder-coated for enhanced protection, resisting environmental wear and ensuring a clean, attractive look over time. Compact yet mighty, this fixture supports AC/DC 12V low voltage systems, making it compatible with most transformers and safe for residential and commercial installations.

Ideal Applications

- Uplighting trees, shrubs, and tall plants
- Illuminating architectural facades and columns
- Accent lighting for pathways, driveways, or steps
- Perfect for recessed installations in concrete, stone, wood, or turf
- Residential and commercial landscaping projects

STEP-BY-STEP INSTALLATION INSTRUCTIONS

Safety Precautions

- Ensure the power supply is turned off before installation.
- Follow local electrical codes and regulations.
- Wear protective gloves during installation to avoid injury.
- Do not install in areas prone to excessive moisture unless properly sealed.
- Ensure all connections are waterproof for outdoor installations.

1. Preparing the Installation Site

- Select a location that provides the best illumination while avoiding areas prone to standing water.
- If installing in-ground, dig a hole large enough to accommodate the fixture and the wiring.
- If installing in concrete or hard surfaces, ensure proper mounting sleeves or junction boxes are available.

INSTALLATION GUIDE FOR UNA06

2. Wiring Connections

- Turn off the power at the main electrical panel.
- Connect the fixture's low-voltage wires to the main power supply using the provided connectors. Use WN12 (Sold Separately) to Waterproof your connection.
- Secure all wire connections and test for continuity before final installation.
- Use waterproof electrical tape or silicone sealant to protect connections from moisture.

3. Fixture Installation

For In-Ground Installation:

- Place the mounting sleeve (if provided) into the prepared hole.
- Insert the fixture into the sleeve, ensuring it is level and secure
- Use gravel and soil for additional stability.

For Concrete/Hard Surface Installation:

- Secure the fixture using mounting brackets or embedded housing.
- Ensure the fixture is flush with the surface for a clean, professional look.

MAINTENANCE TIPS

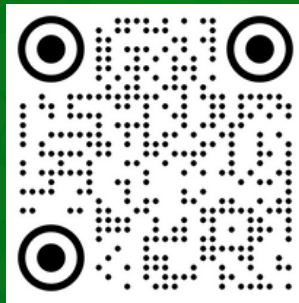

- **Regular Inspection:** Periodically check the bracket and fixture to ensure they are still securely mounted and functioning correctly.

SAFETY PRECAUTIONS

- Always wear appropriate safety gear, such as gloves and safety glasses, during installation.
- Ensure the mounting surface is capable of supporting the weight of both the bracket and the lighting fixture.
